Assignment 3

Website link

- <https://sites.google.com/view/karachi-fusion-wear/home>

This is the link to my Karachi Fusion Wear website made using Google Sites.

Introduction

- After the website design was approved, ByteWise Solutions asked me to start developing the website. ByteWise Solutions is a company that creates modern and easy-to-use websites for local businesses, t-shirt printing.
- The goal of this task is to build a fully working website based on the approved design and storyboard. This includes using images and other assets and adding simple interactive features using JavaScript. The website must be easy to use, accessible, and suitable for the target users.
- When the website is finished, it will be tested to make sure everything works properly. Testing will check how the website works, how easy it is to use, and how well it performs. Feedback from users and the client will be used to make improvements.
- My website includes 8 pages such as Home, Deals, Men, Women, Unisex, Store Location, About Us, and Contact Us.
- The website also includes interactive features such as payment buttons, social media links, embedded Google Maps, videos, and contact links.

Purpose of the Folder Structure

- The folder structure keeps the website neat and organised. It helps people find files easily. Each page has its own folder, like Home, Deals, Unisex, Men, Women, Store Location, About Us, and Contact Us. This keeps everything in the right place.
- A clear folder structure helps developers work faster. They can quickly find images and pages. It also helps stop problems like missing files or broken links.
- This is good practice because the website is clean and easy to manage. It also makes it easier to fix and update the website later. The files are organised, so the website works well.

Karachi Fusion Wear

Wear Your Style with Karachi Fusion Wear

At Karachi Fusion Wear, we turn ideas into fashion. Explore trendy ready-made designs, enjoy high-quality printing, or create something unique with your own custom design. Whether it's for personal wear, brands, events, or gifting we deliver comfort, quality, and style in every T-shirt. Your Design. Your Style. Your Identity. Premium T-Shirts. Custom Designs. Quality Printing. Made to match your style and creativity

Trendy Ready Designs

Discover stylish, modern T-shirt designs crafted for comfort and everyday fashion. Perfect for casual wear and gifting.

High-Quality Printing

We use advanced printing techniques to deliver sharp, durable, and long-lasting prints on every T-shirt.

Your Design, Your Style

Upload your own artwork or logo and create a custom T-shirt that represents you, your brand, or your event.

Annotate

Logo (Top Left)

- The logo is at the top left of the page. The logo helps users recognise the Karachi Fusion Wear brand and know they are still on the correct website.

Navigation Bar (Top Right)

- The navigation bar has buttons like Home, Deal, Unisex, Men, Women, Location, About Us, and Contact Us. These buttons help users move to different pages easily and quickly without getting lost.

Page Title - “Karachi fusion wear”

- The big word “Karachi fusion wear” is in the centre at the top. It tells users which page they are on.

Background Image

- There is a background picture at the top of the page. It makes the website look modern and attractive.

Annotate

Website Description Title

The sentence “Wear Your Style with Karachi Fusion Wear” explains the purpose of the website. It tells users what the business offers.

Website Description Paragraph

The paragraph explains that customers can buy ready-made designs or create custom T-shirts. It also talks about quality and comfort.

Product Images Design 1, Design 2, Design 3

There are three T-shirt images on the homepage. These show examples of the products available. This helps customers understand what they can buy. Design Sections

Design 1 – Trendy Ready Designs

Shows ready-made T-shirt styles.

Design 2 – High-Quality Printing.

Shows the printing process and quality.

Design 3 – Your Design, Your Style

Shows that customers can upload their own design.

Is the website accessible and easy to use for different users?	Yes, it is simple to understand.	Yes, the layout makes it easy to use.	Yes, it is accessible for users.

Question	Friend 1	Friend 2	Friend 3
Do the images and videos display correctly on the website?	Yes, images and videos work correctly.	Yes, the images are clear.	Yes, everything displays correctly.
Do you have any suggestions to improve the website?	Add more product descriptions.	Increase text size slightly.	Add more spacing between sections.
Everything is on it place?	Remove contact us from home page	Contact us options should be on contact us page not on home page	Everything is good

Improvement 1 – Increased Text Size

- Friend 2 said that the text on some pages was slightly small and could be difficult to read.
- "Yes, but the text size could be slightly bigger."
- I increased the text size on the pages to make the content easier to read.
- Why this improvement was made:
This improves accessibility because users with weaker eyesight can read the website more easily.
- Evidence:
Screenshot showing before improvement and after improvement.

Improvement 2 – Added Product Descriptions

- Friend 1 suggested adding more information about the products.
- "Add more product descriptions."
- I added short descriptions under the product images explaining the design and product details.
- This improves usability because users can understand the product better before making a purchase.
- Screenshot showing before improvement and after improvement.

Improvement 3 – Added More Spacing Between Sections

- Friend 3 suggested improving the layout by adding more space between sections.
- “Add more spacing between sections.”
- Change made I increased the spacing between images and text sections on the pages.
- Why this improvement was made This improves presentation and readability because the website layout becomes cleaner and easier to view.
- Evidence Screenshot showing before improvement and after improvement.

Show your pride with our iconic crescent and star design. Perfect for national events, celebrations, or everyday wear.

Express yourself with our modern graphic tees. Clean, stylish, and perfect for casual outings, college, or social events.

Improvement 4 –Removed Social Media from Home Page

- Friend 1 and friend 2 said the home page looked slightly busy because there were too many social media buttons.
- Friend 1 “Remove contact us from home page ”
- Friend 2 “Contact us options should be on contact us page not on home page”
- I removed the social media buttons from the home page and kept them only on the Contact Us page.
- This improves the layout and usability of the website because the home page now looks cleaner and easier to read. It also helps users focus on the main content such as products and designs.
- Screenshot showing the home page before removing the social media buttons and another screenshot showing the home page after the improvement.

Improvement 6 – add alt text on images

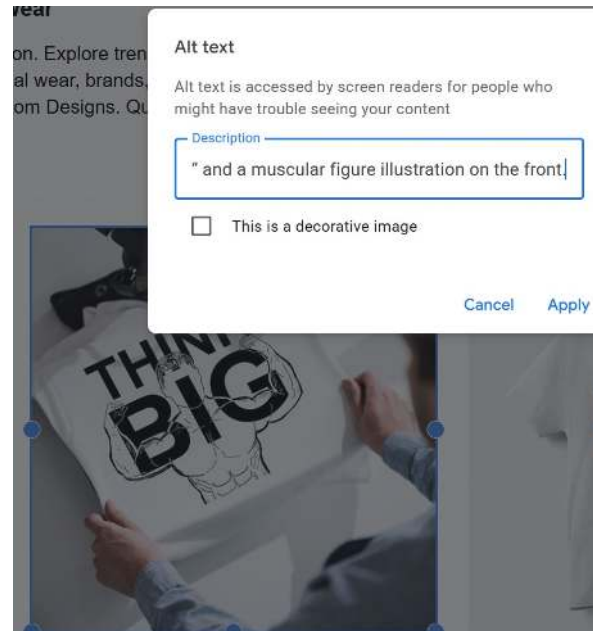

- Another improvement I made was adding alt text to images on my website. Alt text describes the images so users who cannot see them can still understand the content.
- This improves accessibility and makes the website more user-friendly for all users, including people using screen readers.

Alt text home page pictures

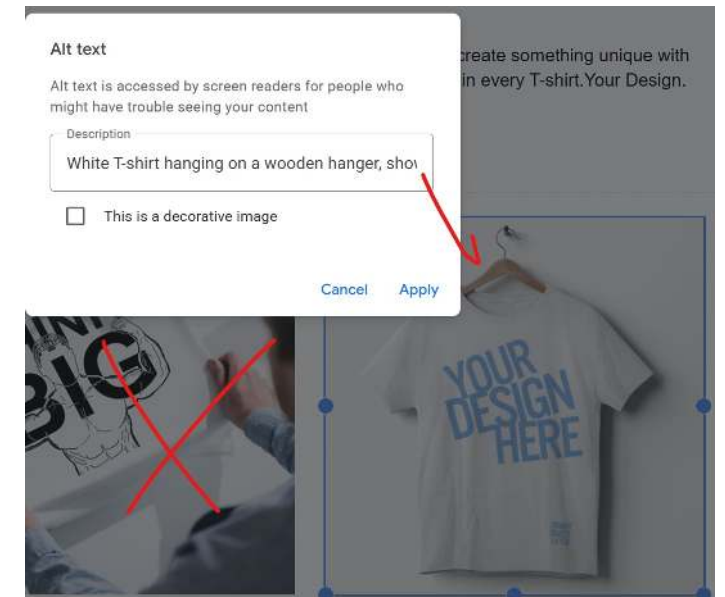

White T-shirt with a round neck, featuring the text "It's Summer Time" in a black handwritten-style font with small yellow design accents around the text on the front.

White T-shirt being printed with a heat press machine, showing a black design with the words "Think Big" and a muscular figure illustration on the front.

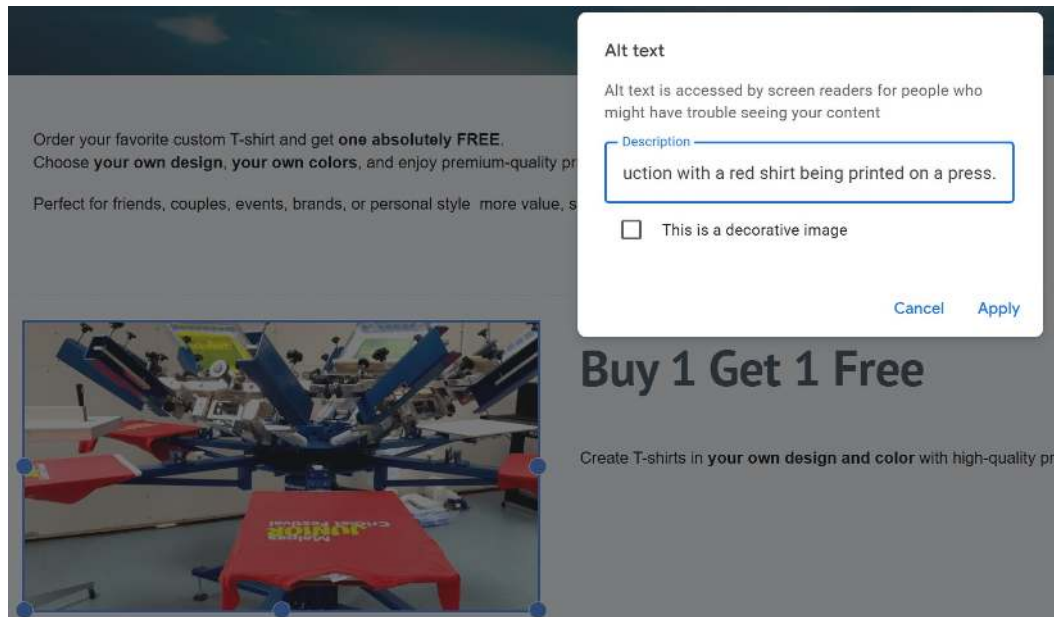

White T-shirt hanging on a wooden hanger, showing a placeholder design with the text "Your Design Here" in large blue letters on the front.

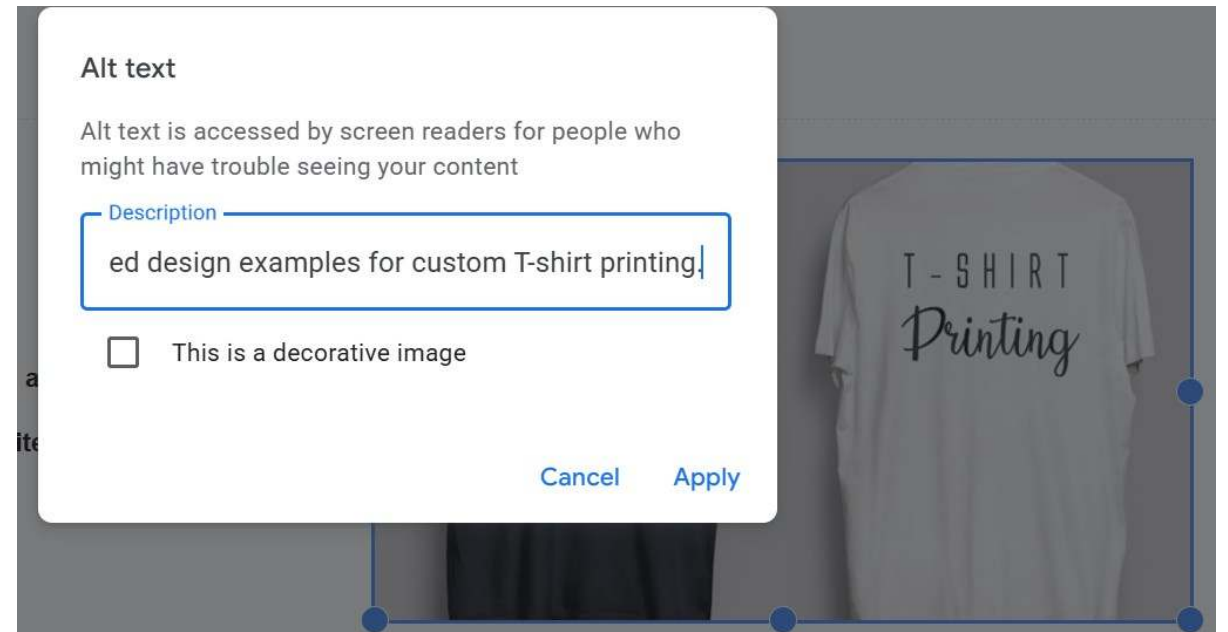

Alt text deal page pictures

T-shirt printing machine in use, showing custom T-shirt production with a red shirt being printed on a press.

Two T-shirts displayed side by side, one black and one white, showing printed design examples for custom T-shirt printing.

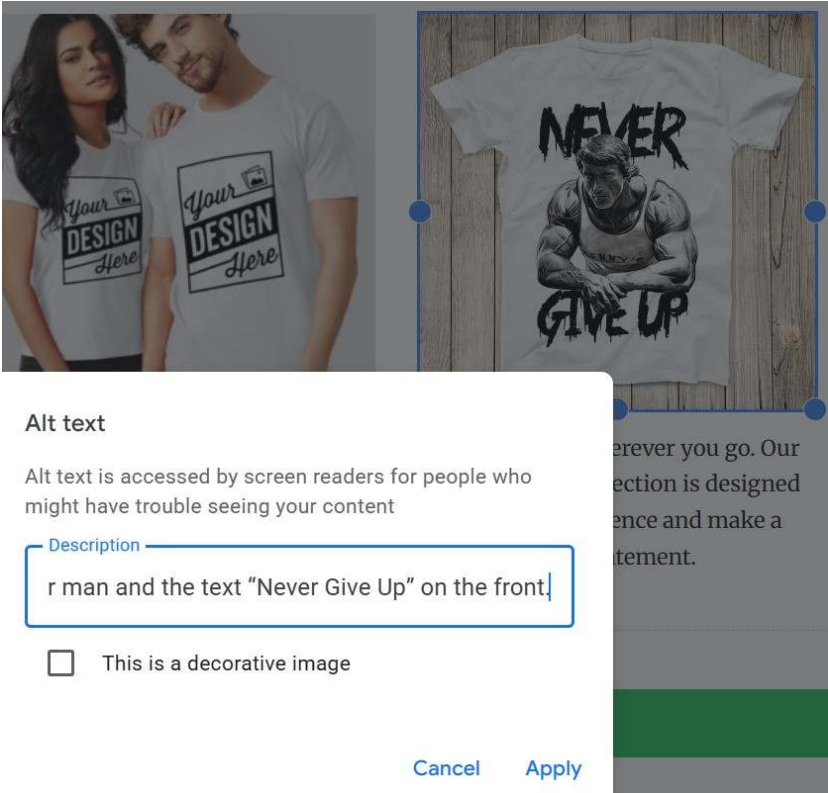

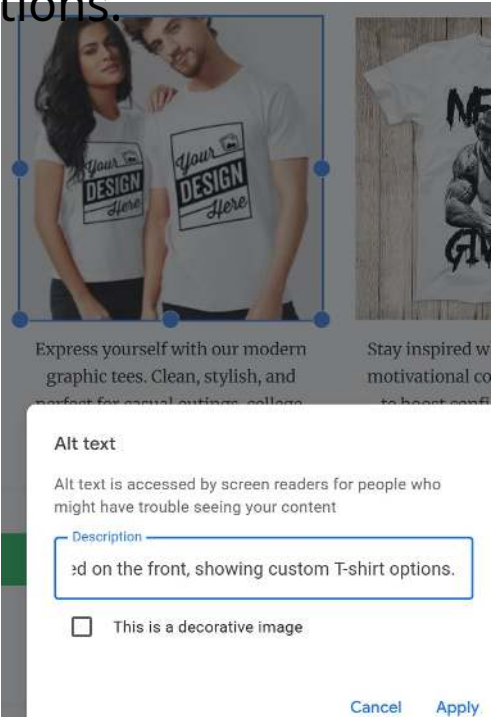

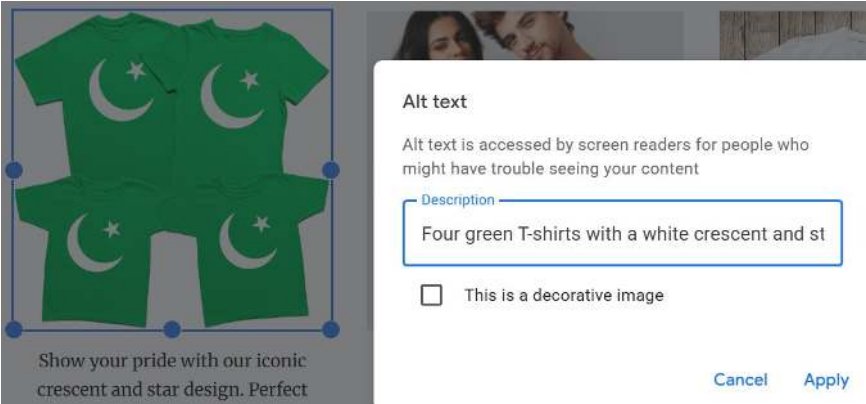

Alt text unisex page pictures

Man and woman wearing white T-shirts with “Your Design Here” printed on the front, showing custom T-shirt options.

White T-shirt with a black illustration of a muscular man and the text “Never Give Up” on the front.

Four green T-shirts with a white crescent and star design, representing a national or cultural theme.

Improvement 7 – Image Compression

- Another improvement I made was compressing the images used on my website. I reduced the file sizes of the images so they load faster.
- This helps improve the website performance because pages open more quickly. It also improves user experience, as users do not have to wait a long time for images to load.
- Overall, this makes the website more efficient and professional.

Home page picture compressed

Name	Status	Size
1.home page t shirt design 1 compressed	✓	38 KB
1.home page t shirt design 1	✓	46 KB
2.home page t shirt design 2 compressed	✓	40 KB
2.home page t shirt design 2	✓	43 KB
3. background picture compressed	✓	70 KB
3.background picture	✓	659 KB
4.home page t shirt design 3 compressed	✓	18 KB
4.home page t shirt design 3	✓	23 KB
5.logo compressed	✓	882 KB
5.logo	✓	1,985 KB

The images on my home page were compressed to reduce their file size. The compressed images are much smaller compared to the original images. For example, the background image was reduced from 659 KB to 70 KB, and other images were also reduced in size. This helps the website load faster. Overall file reduce from 2,756 KB to 1,048 KB

This improvement increases website speed and improves user experience. Users can load the page quickly without waiting, which makes the website more efficient and professional.

Design 1

Design 2

Design 3

Logo

Home page picture compressed

Name	Size
1.deal page t shir design 1 compressed	308 KB
1.deal page t shir design 1	610 KB
2.deal page t shir design 2 compressed	19 KB
2.deal page t shir design 2	32 KB
3.background picture compressed	70 KB
3.background picture	659 KB
4.logo compressed	882 KB
4.logo	1,985 KB

→ The images used on the deal page were compressed to reduce their file size. For example, one image was reduced from 610 KB to 308 KB, and another from 32 KB to 19 KB. The background image was also reduced from 659 KB to 70 KB. Overall file reduce from 3,286 KB to 1,279 KB

Design 2

Background

Compressing the images helps the website load faster. This improves performance and makes the website easier to use. Users do not have to wait a long time for images to load.

Overall, this makes the website more efficient and professional.

Logo

Improvement 8 – subtitle size increase

- Before, the subtitle text “Wear Your Style with Karachi Fusion Wear” was small and not easy to see. Users may not notice it quickly.
- After, I increased the size of the subtitle. Now it is bigger, clearer and easier to read.
- This improvement makes the text more visible and improves readability. It helps users understand the content faster and makes the website look more professional.

After

Conclusion

- In this assignment, I created and tested my website called Karachi Fusion Wear. The website was designed to show custom T-shirt designs and give information about the business.
- I tested the website to make sure all pages, images, links, videos and buttons work correctly. I recorded the results in a test plan and added screenshots as evidence.
- I asked other users to test the website and give feedback about the layout, colours, navigation, usability and accessibility. Based on their feedback, I made improvements to the website. These improvements included increasing the text size, adding product descriptions, improving spacing between sections, and removing social media from the home page to make the layout cleaner.
- Overall, the website now works well and is easier for users to read, navigate and understand.

Embed code for social media

- I used this HTML embed code to add social media buttons to my website. The code was used on the Contact Us and Store Location pages to connect users with Facebook, Instagram, TikTok, Snapchat, WhatsApp, and Email links.
- Using embed code helped the buttons work correctly and open the correct social media pages automatically. It was faster and more reliable than adding every button manually one by one.

Embed code for footer

- Business Name: Karachi Fusion Wear is displayed clearly.
- Email Link: Users can click the email address to send an email directly.
- WhatsApp Link: Users can click the WhatsApp number to start a chat.
- Social Media Buttons: Instagram, TikTok and Facebook buttons allow users to visit the business social pages.
- Automatic Year: The copyright year updates automatically using JavaScript.
- I used this HTML embed code to make the footer section for my website. The footer includes the business name, email address, WhatsApp contact, copyright information, and social media links.
- Using HTML code helped me keep the footer neat and the same on all pages of the website. It also made the footer easier to update and look more professional instead of adding all the information manually on every page.
